**Subject: West Valley Mosquito and Vector Control District Notice of Intent to apply aquatic larvicides and adulticides for vector control as part of the District's integrated vector management program.**

Pursuant to the provisions stated in the National Pollutant Discharge Elimination System (NPDES) Permit (Water Quality Order No. 2011-0002-DWQ) [General Permit No. CAG 990004] adopted on March 1, 2011, and revised on July 2, 2014, (Water Quality Order 2014-0106 DWQ) and (Water Quality Order 2016-0039-DWQ), notice is hereby given that the West Valley Mosquito and Vector Control District intends to continue to perform larvicide, ultra-low volume (ULV) adulticide, and adulticide applications as part of its integrated vector management program.

The District's activities are conducted year-round within a 210-square mile area in the southwest corner of the County of San Bernardino. The areas that will be actually or potentially impacted by District activities include dairy wastewater lagoons, dairy pastures, irrigated agricultural fields, unmaintained above and underground stormwater BMP devices, neglected swimming pools, natural and manmade riparian habitats, manmade wetlands, street gutters, street drains, backyard sources and miscellaneous standing water sources and other waters of the U.S. in the following: The incorporated cities of Chino, Chino Hills, Montclair, Ontario, Rancho Cucamonga, Upland and unincorporated areas of San Bernardino County within the District's sphere of influence.

The following is a list of active ingredients approved for the FIFRA regulated pesticides and used within the District boundaries.

Active ingredients for larval mosquito control:

<i>Bacillus thuringiensis</i> subsp. <i>israelensis</i> (Bti)
<i>Bacillus sphaericus</i> ( <i>Lysinibacillus sphaericus</i> ) (Bs)
Mineral oil
Spinosad
Pyriproxyfen
Methoprene

Applications are made in an effort to protect the public's health from vector-borne diseases, are based on key vector and arbovirus surveillance indicators, and are in strict compliance with pesticide label requirements. District personnel are licensed and apply pesticides according to product label and in compliance of local, state, and federal regulations.

If you have any questions regarding this Notice of Intent, please contact:

Solomon Birhanie, Ph.D.  
Scientific Programs Director
